

Ivegill Student Leadership Team

Who are the Student Leaders?

- We are a team made up of 5 pupils that have been working towards completing our aims and goals for the year.
- Ivy is our yr4 student leader who is a great asset to our team.
- Roan is our yr3 student leader who thinks everything is too expensive.
- Seth is our youngest student leader who is in yr2.

Election

- We have been picked by our very own classmates who thought we were the best candidates to represent their year group.
- The election took place early September and we had to deliver a speech to our classes explaining why we would be good in the role. Following our speeches every pupil in our year group casted their vote.
- We are very thankful to have been picked by our fellow classmates for the student leadership team.
- Please listen to some of my speech. 

The voice of the pupils

- It is very important to know what our classmates want, without their ideas we would not be able to do our jobs correctly.
- Every few weeks we will talk to our classmates and take in their ideas for the school.
- After we have spoke to our fellow pupils we report back to Mr Trickett and we tell him the classes thoughts and ideas.
- We will then begin working towards our plan.

What have we achieved?

- So far we have completed a reasonable amount of requests from our classmates such as a trolley outside with new sports equipment and clear breaktime rules.
- Ever since the appearance of the trolley students have become more active during breaks and playtimes.
- New rules have also been put in place with the equipment such as no frisbees until summer [knowledge comes at a cost].

Our aims

- We have so many more ideas and suggestions from our classmates and we plan to do all requests that are possible, here are a few of our main targets:
- Introduce a well-being trolley to be used as an alternative to the sports trolley for children who want a quiet break. This will be introduced in the summer term.
- The summerhouse will be renovated,
- For a library committee to start ‘mini-librarians’,
- And to introduce more events an example being a fun fair to raise money

Any Questions?

Thank you for listening!
